

PROJECT OCEANOLOGY

Facebook Live: Setting Lobster Pots

Form and Function of a Lobster Trap

1. Draw a lobster trap in the space below and label the following parts:
Entrance Head, Kitchen, Parlor or Living Room, Escape Vent, Buoy
2. Describe the function or purpose of each part of the lobster trap.

Bottom Conditions

3. Record the bottom conditions the Project O educators measured.

Depth (m)

Clarity (m)

Temperature (°C)

Salinity (ppt)

4. Based on these conditions do you expect to find lobsters in the traps when they are pulled up next week? Why or why not?
