

PROJECT OCEANOLOGY

Creature Feature: Sea Urchin

STEAM Connection

Nonfiction books often show pictures and drawings with labels to help the reader notice details. Draw a large picture of a purple sea urchin. Be sure to include drawing of two different views of this animal (make sure one view shows the bottom or underside of this animal). Label the following parts: tube feet, Aristotle's Lantern (mouth), test, spines. You may also include a few notes about how urchins move, what they eat and adaptations they use for protection. Share your work to **#ProjectOCreatureFeature**
